

Simple and quick online access to applications and data.

AltuCloud™ hosted IT solutions are easily installed and simple to manage; so you can run your business more cost effectively.

Access all of your software applications, email and secure data online for a low monthly subscription fee, with no need to make a capital investment in hardware or licenses.

Benefits of Web Services:

- **Reduced Start-up Costs:** Subscription software and remote server access eliminates physical infrastructure and increases security and reliability.
- **Mobile Access:** Access your data on-demand anywhere with an Internet connection.
- **Instantly scalable:** AltuCloud™ can support as many or as few people as required.
- **Easy to use:** User access via a familiar web-based portal interface.
